Raised in the Welsh countryside on movies, Saturday morning cartoons & comic books with pencil constantly in hand. I've been a paid scribbler since 2004. I love drawing 'STUFF' All kinds of 'STUFF'. Be it children, adults, robots, dinosaurs, alien space ships, historical epics or nonsensical poems. Anything to get my head down to the drawing board / wacom and wringing my brain for all it's worth. The more imaginative and bizarre the brief the better. I live in the mountains of North Wales with my wife Ceri and my young son James.
