Duc Nguyen was born and raised in Saigon, Vietnam. When I was a child, I did not have many modern devices such as phones and computers to learn about everything around me. So I tried holding a pencil to amuse and found inspiration in drawing since then. After graduating from high school, I studied at Ho Chi Minh City University of Fine Arts and had a bachelor's degree in graphic design and illustration. I started my dream by joining a local magazine. Since then, I have had a lot of experience working with publishers and have published quite a few picture books. I still practice and improve myself every day. I hope to be able to develop my abilities further in the future and have the opportunity to participate in more interesting projects with major publishers around the world. In my free time, I enjoy baking, making handmade things and spending time with my dogs. Pets bring a lot of fun and relaxation to me after hard work. If not an illustrator, I'll try baking or any career that is relevant to the animals.
