

I am a South Yorkshire based illustrator and Graduated in Illustration at the University of Lincoln. My work is a mixture of traditional hand drawn line art finished in digital software, I grew up influenced greatly by the creative works of Jim Henson , Martin Handford , Peter Laird ,Kevin Eastmen and James Gurney too name but a few, I always try to give my work as much personalty and detail as possible looking to ground it in its own world no matter how big or small, I've always been drawn to busy vibrant imagery and try to showcase this in my own style

"Thank you for helping us find the book! In case you didn't here's where it was hiding..." - Tiny Tin

With the help of Sam and all the robots of the great library... Keegan sat down and began to solve the clues inside the purple book...
