Born in 1973 in Barcelona, I started my professional career working in animation. After a while I started to do storyboards for commercials and for some live action movies. For more than 10 years I've been working as a comic artist and children and teenage projects mainly for Germany. Since 2013 I'm publishing illustrated books for Random House Spain. In 2016 I became a member of the family represented by Beehive. Thanks so much for your interested and I hope I can help you to illustrate your projects.
