beehive
ILLUSTRATION

Serineh Eliasian

info@beehiveillustration.co.uk

I'm a children's books illustrator from Armenia and my goal is creating a world for kids, where everything is fun and beautiful. I've got my MA in graphic design, but after graduation I realized I need more creativity in my work. So I started doing what I love and I'm really enjoying every minute of it. I have a private corner in our home where my imaginary world becomes true! I like to decorate my desk with colorful lights, plants and every little thing that inspires me. I love to sit behind my desk everyday and "grow" like my plants. When I'm not drawing, you can find me reading a book, playing the piano or simply day-dreaming about being a very very successful children's books illustrator/author!
