ILLUSTRATION

Thais Mesquita

info@beehiveillustration.co.uk

Olá! I'm Thaís, a Brazilian artist currently based in Germany working as a full-time freelance illustrator and 2D artist across several projects. Over the years, I have worked with multiple publishers and animation studios, from picture books and concept art to design for various media and applications. I have a B.A. in Fine Arts and an M.F.A. in Media and Design, and my strong background in traditional art is always present in my work and in my way of thinking and solving problems. Spooky stories are my favorites, and projects that allow stylization and the creation of whimsical worlds are the ones that attract me the most.
